

<b>Product Code</b>  <b>SEC-CM-SSB1-H1</b>	<b>Nominal Dimensions</b>  22" x 22" x 11"	
<b>Description</b>  This ceiling mount (CM) secure splitter box (SSB) provides secure rackmount functionality for situations where walls are not accessible and/or not preferred. The SSB1 unit comes with two, four rack-unit (RU) brackets that were originally designed to support Passive Optic Network (PON) splitters and/or optical patch panels in a classified PON installation. The door of this enclosure comes equipped with safety cable lanyard doorstops, and welded tabs for fiber optic alarm loop attachment. Additionally, the unit comes with cable management clips for organizing large cable bundles, and smaller cable management tabs for use with Velcro® straps. Eight 7/8" diameter punches are located on top and purposed for 1/2" armored fiber connectors. Twenty-five (25) additional notches are located in a staggered formation to support more cables if needed. Hole plugs and armored fiber box connectors can be ordered separately. Welded L-brackets with slots are located on all four sides, and used with strut, all-thread rods, or direct-mount to true ceiling foundation. The door locks securely using Holocom's patented back flange, rods, and a Sargent & Greenleaf® padlock. The enclosure has a weather strip around the door frame to prevent dust from entering the compartment. This enclosure can be special ordered and modified to meet specific user or manufacturer requirements.		
<b>Specifications</b> <ul style="list-style-type: none"> <li>• Length 22" x Width 22" x Depth 11" (not including L-brackets)</li> <li>• 16-gauge electro-galvanized steel</li> <li>• Single drop-down door with lanyard doorstop, internal spring hinge, and padlock handle for Sargeant &amp; Greenleaf® padlock</li> <li>• Eight (8) rack units of space for patch panels</li> <li>• Includes cable management clips</li> <li>• Eight (8) 7/8" diameter cable I/O punches</li> <li>• Total weight: 47.5 lbs</li> </ul> <p>Powder Coat Finish: White Textured</p>
